John's award-winning mystery/suspense novel is titled *The Elymais Coin*. The story follows the search for a 3000-year-old coin through a series of murders, thefts, and even a military engagement with elements of Al-Qaida. The quest moves through France, Andora, Spain, Morocco and Mexico and involves a shadowy middle easterner, a beautiful Russian woman, a rabidly anti-Muslim bishop's acolyte, members of the Maffia, the CIA, and finally the U. S. Attorney-General, because of the coin's suspected use in a subversive plot. It is an entertaining fictional tale that also provides insight to the confusing Muslim situation the United States faces in its war in the middle east.
